HCLSoftware

Impact Delivered by HCL BigFix Compliance

HCL BigFix partner has enabled a large transaction processing company to pass security audits and show PCI compliance, eliminating weeks of manual work for every audit.

Enabled the company to be more secure by reducing the unpatched window through powerful and efficient remediation methods.

Now they have a solution that can provide 100% visibility into everything that is connected on the network and its compliance status.

All of this needed to be deployed in a three month time frame!

Financial Institution maintains compliance with regulatory requirements
